

Work Experience

- Jr. UI/UX Designer, Softzen IT, Dhaka, Bangladesh** (1 Nov, 2025 - 28 Feb, 2026)
 - Designing wireframes, prototypes, and final UI for a multi-vendor e-commerce and ride-sharing app.
 - Conducting UX research and user flow mapping to improve clarity and usability.
 - Building and maintaining a consistent design system with reusable components.
- Freelance UI/UX Designer — Remote** (1 Feb, 2025 - Present)
 - Designed a modern control dashboard for vending machine owners to monitor machine activity in real time.
 - Designed an intuitive dashboard enabling music artists to manage merch sales, monitor performance analytics, and streamline order operations in one platform.
- Industrial Attachment , SELISE digital platforms** (18 May 2025 - 29 May 2025)
 - Completed a 2-week onsite industrial attachment at the Selise Group office.
 - Worked on a solo project: designing a blood donation platform where users can register to request blood and donors can sign up and connect with recipients.

Project

- PizzaPilot – Smart Vending Control App** 
Designed a user-friendly app for managing pizza vending machines with real-time control and monitoring.
- MERCHX E-commerce Dashboard** 
Designed a dashboard for artists to manage merch, orders, and sales.
- SoftRide – Ride-Sharing App** 
Currently designing the ride-sharing app using reusable components.
- ShopZen – E-Commerce App** 
Independently designed all screens, flows, and components for a multi-vendor shopping experience.
